HEALTH PLANS

2026 Prescription Drug Transition Policy

Solis Health Plans is committed to ensuring that members do not experience sudden interruptions in their prescription drug therapy. When you join our plan or when changes are made to the formulary, some of your current medications may not be included or may require additional approval. This policy provides a temporary supply of these medications while you and your prescriber determine the most appropriate next steps.

When This Policy Applies

You may be eligible for a transition supply if:

- Your medication is not on our list of covered drugs (formulary).
- Your medication requires prior authorization.
- Your medication requires step therapy.
- Your medication exceeds the approved quantity limit.

Temporary Supply (Transition Fill)

During the first 90 days of your enrollment, you may receive a temporary supply of your current prescription. This applies to prescriptions filled at retail pharmacies, mail-order pharmacies, and for residents of long-term care (LTC) facilities. For LTC residents, a minimum 31-day emergency supply may also be provided if additional time is required for the review of an exception request.

Next Steps After Receiving a Transition Supply

Both you and your prescriber will receive a written notice explaining:

- That the medication provided was temporary.
- Available alternatives that are on the formulary.
- How to request an exception if your prescriber determines that the medication is medically necessary.

Cost-Sharing

The copayment for your transition supply will be the same as your regular cost-sharing amount. For members who qualify for Extra Help (Low-Income Subsidy), copayments will not exceed the statutory maximum.

Situations Covered

- New members enrolling in Solis Health Plans.
- Members who move into or out of a hospital or LTC facility.
- Members affected by formulary changes between plan years.

Member Responsibilities

1. Obtain your prescription during the 90-day transition period.
2. Consult with your prescriber about switching to a formulary drug or submitting an exception request if needed.
3. Contact Solis Health Plans Member Services with any questions or concerns to ensure uninterrupted access to necessary medications.

For any questions, reach out to Solis Member Services at (844) 447-6547 (TTY: 711).
